RICHARD MITCHELL,

Duck Lake, 15th August, 1892.

For Over Fifty Years.

MRS. WINSLOW'S SOOTHING SYRUP has been
used by millions of mothers for their chil-
dren while teething. It is a safe and reliable
remedy for all the troubles of teething, and
broken up by a sick child suffering
and crying with pain of cutting teeth, send
at once and get a bottle of "Mrs. Winslow's
Soothing Syrup" for Children Teething. It
will relieve the poor little sufferer immedi-
ately. Depend upon it, mothers, there is no
other remedy so safe and so effective. Teething
regulates the Stomach and Bowels, cures Wind
Colic, soothes the Gums and reduces the In-
flammation, and gives tone and energy to
the whole system. "Mrs. Winslow's Sooth-
ing Syrup" for children teething is pleasant
to the taste and is the prescription of one of
the oldest and best female physicians and
nurses in the United States. Price twenty-
five cents a bottle. Sold by all druggists
throughout the world. Be careful and ask for
MRS. WINSLOW'S SOOTHING SYRUP.

THE ASSEMBLY.

Promptly at 2:30 p.m. the Speaker took
the chair.

Mr. Jellie gave notice that he would ask
"Has the Executive Committee had full
control over the expenditure of the \$24,
382 47/100 voted at the last session of this
Assembly for roads, bridges and district
vote?"

Mr. Cayley gave notice to ask the leader
of the Executive if it is the intention of
the Committee to deal with the expense
of the smallpox visitation to Calgary and
Sheppard.

Mr. Page—To introduce a Bill entitled
"An Ordinance to amend and consolidate,
as amended, the Ordinance respecting
Agricultural Societies."

Mr. Haultain—To introduce a Bill to
amend Chapt. 29 of the "Revised Ordin-
ances, 1888," entitled "The Marriage
Ordinance."

Mr. Haultain—A Bill to amend "The
Liquor Licence Ordinance."

Mr. Cayley from the committee to draft
an address in reply to the speech of His
Honour the Lieut-Governor reported said
draft.

House resolved into Committee of the
Whole to consider same.

Mr. Cayley remarked that the matter
was an entirely formal one, and as it raised
no controversial point, it was not deemed
necessary to have it printed and distributed
as in former years.

Mr. Oliver remarked that whether or
not any controversial point was in the re-
ply, he was sure that such a point was
contained in the address itself and he
would like to have the opportunity to deal
with it.

Mr. Haultain suggested that the address
be read through as a whole and afterwards
considered clause by clause. It was ac-
cordingly read. It deals concisely and
very briefly with the matters referred
to by His Honor at the opening.

Mr. Oliver said that clause 4 relative to
the liquor law was not a sufficient reply to
the clause as contained in His Honor's
address. He was ready now to move an
amendment and go into the discussion if
necessary.

Mr. Cayley moved the adoption of the
clause as reported from the committee.

Mr. Oliver moved the following be in-
serted instead: "The Assembly regrets
that the apprehensions as to the evil
effects likely to arise from the change in
the liquor law have not been realized."

Mr. Cayley did not think it necessary to
discuss this matter at length. It was diffi-
cult for His Honor in remarking at all in
reference to this question, to avoid being
in the opinion of some one controversial.
No good could come of adopting the
amendment. Mr. Oliver's objection was
mainly an objection to the kind of Bill
that had been passed and therefore the
better way to deal with it would be when
the forethought amendments would be
under consideration.

Mr. Haultain did not think it necessary
on the present occasion to go into contro-

versary with the Lieut-Governor. His
Honor was in no wise responsible for the
license act and was therefore not respon-
sible for any results of it.

Mr. Oliver again insisted that the ad-
dress contained a statement which he be-
lieved was contrary to fact, and when
such an assertion was thrown before him
he felt bound to protest.

The amendment was lost, Oliver, Dill
and Knowlton alone voting for it,
whereupon the original clause passed and
the committee rose and reported the draft
agreed to without amendment.

On motion of Mr. Cayley it was resolved
that it be presented to His Honor by the
Executive.

Mr. Haultain, by authority of the Lieut-
Governor, laid upon the table the report
of the Chief License Inspector.

Mr. Haultain moved the second reading
of the Bill entitled "An Ordinance to
Amend Certain Ordinances." He ex-
plained that the object of the Bill was to place
the responsibility for various appointments
and expenditures upon the Executive
where it properly belonged. The several
Ordinances recited in the Bill would be
amended by inserting after the words "Li-
censes" wherever they occur, the words
"in Council."

The Bill was referred to the Committee
of the Whole.

Upon the reading of clause 12 referring
to the Statute Labor and Fire Ordinance,
Mr. Jellie said I suppose Mr. Chairman
one result of this change will be that
whenever there will be more promptly at-
tended to in future. In my district we were unable,
owing to official delay, to get the appoint-
ments made in time to be of any service.

Mr. Haultain—in reference to this mat-
ter I may say that I know of no one more
to blame than my honorable friend him-
self for he failed to make the required
application until the specified limit of
time had expired.

Mr. Jellie—I beg to say that several
weeks transpired between the application
and the appointment. I certainly could
not be blamed for that.

Mr. Haultain—That may be but the ap-
plication was too late nevertheless.

Mr. Jellie—That objection was not raised
when I made the application.

Mr. Haultain—I presume they thought
you were acquainted with the provisions
of the Ordinance.

The committee rose and reported pro-
gress.

Mr. Betts remarked that since the House
last met some changes had taken place on
the Executive which called for explana-
tion.

Mr. Haultain—I do not know that such
analogies exist between us and other Ex-
ecutive bodies as to render an explanation
necessary. I have not considered the idea,
but I presume that if the hon. member is
thirsting for information on that subject,
he is ingenious enough to invent a plan to
bring it before the House.

Mr. Betts—I shall endeavor to do so.
The House then adjourned.

TUESDAY, August 9th.
House met at 2:30 p.m.

Mr. McKay presented a petition in refer-
ence to the Diocese of Saskatchewan.

The following notices were given:
Mr. Boucher—Bill to amend the "Ferries
Ordinance."

Mr. Meyers—That a special committee
be appointed to consider the question of
obtaining and opening a trail between the
Saskatchewan and Yorkton; the commit-
tee to consist of Messrs. Keathen, Betts,
Dill, Sutherland and the motion.

Mr. Mowat—Bill to amend and consoli-
date as amended the Ordinance No. 8 of
1889, to regulate the practice of dentistry
in the North-West Territories.

Mr. Haultain—To move that hereafter
until the end of this session, when the
business of the day is not concluded at
5:30 o'clock, the Speaker shall leave the
chair until 8 o'clock.

Mr. Haultain—Bill to amend Chapt. 29
of the Revised Ordinances, 1888, entitled
"The Marriage Ordinance."

Mr. Berman presented a report of the
Agricultural committee recommending
that substantial and be given towards the
formation of a North West Dairyman's
Association as contemplated by Ordinance
No. 15 of 1891-2; and also that a meeting
for the organization of said association be
held here at an early date. The matter
was left over until Friday.

Mr. Haultain in reply to Mr. Jellie's
question re expenditure said that the sum
voted last session for roads, bridges and
district vote had been expended by the
Lieut-Governor in Council according to
the interpretation of that term.

Mr. Haultain in reply to Mr. Cayley's
question in reference to smallpox, said
that having no official knowledge of ex-
penditures incurred at Calgary and Sheppard,
the Executive was not prepared at present
to say what its action in reference there-
to would be. The Executive was of the
opinion however that all legitimate ex-
penses should be paid.

Mr. Page introduced his Bill to consoli-
date and amend the Ordinances respecting
agricultural societies. It was put down
for second reading on Thursday.

Mr. Haultain introduced a Bill to amend
the Liquor Licence Ordinance. It is to
get a second reading on Friday.

The Bill re Tree Planting was put
through its final stages. It is a very
wise for an annual Arbor Day.

The House then adjourned.

PRINCE ALBERT, AUG 10, 1892

THE GAME LAW.

In amending Ordinances it should
be carefully considered whether the
amendment will be for the better or
the worse. At the last session of the
North West Legislature the Game Or-
dinance was amended by changing the
open season for ducks from the 1st
September to the 15th August. This
amendment was brought about by the
ex-member for Regina. This change
may have been in the interests of cer-
tain classes, but certainly not for the
benefit of the game sought after. We
hope in the interests of humanity that
the open season will again be changed to
the 1st or even the 15th September.
Very few of the ducklings are at this
early season able to fly, and the hunt-
ing of them seems more like acts of
butchery than that of hunting. Some
argue that we may as well shoot them
as for the game to go to other countries
to meet the like fate. We quite agree,
but do not believe in the system of
wholesale slaughter. Good sportsmen
delight in duck hunting, and pride
themselves in shooting them upon the
wing. This is the proper method of
hunting the duck, partridge, etc., in-
stead of killing them before they are
able to fly. We hope some member of
the Legislature will endeavor to have
the Game Ordinance amended, and
have the close season for ducks again
extended to at least the 1st September.

BUNGLING.

It is now over six weeks since the
promotion examinations from Standard
III. to Standard IV. and to the High
School took place, and as yet no report
has been made by the Board of Edu-
cation of candidates passed. This is a
great mistake, and should never have
been allowed to occur. The same may
be said of those who have written for
teachers' certificates. All the examina-
tion papers, not only for promotion
but for teachers' certificates, should
have been examined and a full report
made of all successful candidates be-
fore the re-opening of the schools.
This bungling places a number of the
schools throughout the Territories in
quite an awkward position. The pupils
who have written for the High School
on returning again to school must re-
enter the fourth class until they know
whether they have been successful or
not. This may be for a week or a
month or more, and then the returns
are made, and the successful pupils
must be transferred to the High School
department after spending a week or
more in the Public School department.
This might easily be avoided, and
should be by all means. In Manitoba
where there were five candidates
writing to one in the Territories, the
result of the examinations was pub-
lished last week. Can it be possible
that the Board of Examiners could not
read the papers in the time? If such
be the case, then by all means the
Executive Committee, which is virtually
the Board of Education, should appoint
sufficient examiners to complete the
work, so that the result of the examina-
tions be known before the opening
of the schools.

THE NEW SCHOOL BILL.

Mr. Mowat, the representative for
Regina, has introduced a new School
Bill for the regulating of the educa-
tional affairs of the Territories. For
several years the School Ordinance has
been undergoing regular yearly
changes. In fact the season would be
void of one of its most prominent
features if the School Ordinance did
not go through some change. As often
as these changes have been made, just
as often has the School Ordinance been
shown of some of its best provisions.
During the last session the School Bill,
which Mr. Mowat has again introduced
this session, was withdrawn, when the
Executive Committee brought in and
rushed through several amendments to
the School Ordinance, the most notable
of which was the payment by results.
There has been a great outcry from
different parts of the Territories against
such a system, and should they ever
come into effect cannot but give the
greatest dissatisfaction, especially to
the schools in the rural districts. We
regret that we have not seen a copy of
the new School Bill that has been in-

duced by Mr. Mowat, but trust that
the aid granted to the schools will not
be upon the basis of results, as such a
system will be not only unjust to the
major part of the schools but will lead
to untold evils, not only to the school
but also to the pupils as well. We
believe in every school being paid a
stipulated sum of money upon a lib-
eral basis as the money for school
purposes will allow. A per capita
grant on average attendance might be
allowed, but this would prove most
unfavorable to the rural schools where
children have long distances to walk,
and therefore do not think such a
change would be in the interest of the
country districts. Encouragement
should be given to employ well qual-
ified teachers, as such a system would
be in the interest of the schools in
general. We trust that whatever
changes may be made in the School
Ordinance they may be such as will
prove equally favorable alike to the
rural and town schools and be such as
will not require to be changed session
after session.

WASHINGTON LETTER.

From our Regular Correspondent

Washington, D.C., August 9, 1892.
Drunkard Congressmen are not extinct
like the ank, dodo, and hairy elephant,
but they are growing scarce like the
American lion, wild turkey, and some-
times sheep. Mr. Watson undoubtedly has
seen some signs of this rare specimen—a
tumpy member of Congress—but his
stories are like fish and snake stories, a
little large. Drunkenness is decreasing
and has almost disappeared at the Capitol.
The late investigation showed that one
Member had been seen drunk on the floor
of the house, and that another, during a
long and fatiguing speech, had slipped,
inched, exulted, or otherwise ported
a little too far, and so on as he thirled,
if his memory served him right, another
stomach ache, which might, perhaps,
have been whirled, landed to him by a
sympathizing colleague to relieve his
throat. There is very little public drunken-
ness and private drinking is growing rarer
among public men. In fact, liquor
drinking by those holding responsible
positions is intolerable. Drinking ship-
masters, railroad men, army officers, judges
and congressmen are not wanted. And
the telegraph and reporter hold such up to
public scorn by simply telling the facts.
Thirty-five years or more ago our great-
uncle was made over a few drunken
congressmen. Washingtonians in private
recount the weakness and tipsy man-
ner of old-time statesmen. One tells of
guiding the tottering footsteps of the great
Webster to his door on Louisiana avenue.
After his day Marshall and Spang of
Kentucky; McClellan, of Alabama;
Tombler, of Georgia; Nye, of Nevada;
Sprague, of Rhode Island; Yates, of
Illinois; and Sanbury, of Delaware,
staggered through the legislative hall.
But their days are gone and no drunkard
inherits public honor. The people will
not have it, though public men do, and
will continue to drink in private.

The work of the last session of Congress
so far as legislation is concerned was
small. Fourteen hundred and fourteen
bills or about 3 per cent. of the total in-
troduced because laws. However it
appropriated thirty five million more
dollars than was ever appropriated in
a single session in time of peace. It is
doubtful whether a smaller amount will
ever meet the rapidly growing needs of
the country. Its population and business
is increasing; it has more produce and
manufactures; more exports and imports;
more railroads and post offices, year by
year. All this implies a necessary growth
in public expenditure which must keep
pace with the continued prosperity of the
country.

It is an interesting fact that the ship
tonnage passing through the Sault Ste.
Marie Canal far exceeds that of the Suez
Canal and that our internal and coastwise
trade exceeds that of the foreign. The
country has a wonderful variety of
products and is large enough to be a great
competitive nation within her own borders.
No party ought to be championed by a wise
and liberal river and harbor bill even
though it calls for millions.

The immense sums which are annually
voted by Congress are expended as wisely
and honestly as like sums in any country
on the globe. And the total yearly
national expenditure amounts to less than
two dollars a piece for all around. Why
should we worry because Uncle Sam and
other folks spend so much money.

Mowat was wise when he gave every
family a farm and provided that it could
not be sold only until public year. And
modern governments may have to put
some restraint upon millionaires, who
manipulate railroads and lands. But an
equal division of property would not make
us all rich nor even "comfortable." The
wealthy German understood it. When the
anarchists called on him and demanded
a division of his money he said: "Very
well, very good. There are so many million-
aires in Germany. I have just the same
number of dollars. Here is a florin for
each of you. It is your share. Good day
gentlemen." When we are inclined to be
wrathful with the millionaires and Uncle
Sam's big expenses let us reflect that it
don't all come out of our pockets.
Americans are all rich when compared
with the majority. Russia is now aiding
its subjects by paying 2 cents an hour or
18 cents for a day of hard labor on public
improvements. These men work from 4
a.m. to 8 p.m. with two hours intermission.
They get board for 9 cents a day. They
are devout Christians and devoutly pray

PIPE SMOKERS.

You may be satisfied with the brands of tobacco you have been using for years. Grant it that you are satisfied. As there is always room for improvement, we ask you to try our Old Chen Pipe, or cut smoking tobacco, and we believe you will be better satisfied. In any case a trial won't hurt you. Don't delay upon the order of buying but buy at once.
